IN THE SENATE OF THE UNITED STATES

DECEMBER 8, 2022

---

## A BILL

To amend title 18, United States Code, to increase the punishment for human trafficking in a school zone, and for other purposes.

1       *Be it enacted by the Senate and House of Representa-  
2 tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4       This Act may be cited as the “No Trafficking Zones  
5 Act” or the “NTZ Act”.

6 **SEC. 2. FINDINGS.**

7       Congress finds as follows:

8             (1) Child sex trafficking can have devastating  
9 immediate and long-term consequences, including

1       health impacts, psychological and physical trauma,  
2       and even death.

3                     (2) While any child can be targeted by a traf-  
4       ficker, research, data, survivors' lived experiences,  
5       and expertise have revealed that traffickers often  
6       target vulnerable youth who lack strong support net-  
7       works, supervision, care, or basic necessities, have  
8       low self-esteem, have experienced violence in the  
9       past, are experiencing homelessness, are experi-  
10      encing academic difficulties, or are marginalized by  
11      society, and lure them into forced labor and pros-  
12      titution and other forms of sexual exploitation. Traf-  
13      fickers are masters of manipulation and prey upon  
14      vulnerabilities using psychological pressure, intimi-  
15      dation, and drugs to control and sexually exploit the  
16      child for their benefit.

17                    (3) The National Center for Missing and Ex-  
18       ploited Children (NCMEC) has received reports of  
19       child sex trafficking in all 50 States, the District of  
20       Columbia, and Puerto Rico. These reports include  
21       incidents occurring in every type of community, in-  
22       cluding suburban, rural, urban, and Tribal lands. In  
23       2021, NCMEC received more than 17,200 reports of  
24       possible child sex trafficking.

1                     (4) Of 22,326 trafficking victims and survivors  
2 identified through contacts with the National  
3 Human Trafficking Hotline in 2019, at least 5,359  
4 were under age 18.

5                     (5) Many underage victims of sex trafficking  
6 are students in the United States school system. No  
7 community, school, socioeconomic group, or student  
8 demographic is immune.

9                     (6) While the internet and social media make  
10 up the majority of first encounters, traffickers regu-  
11 larly find young people in shopping malls, through  
12 friends, at bus stops, and at schools. Specifically,  
13 traffickers systematically target vulnerable children  
14 and youth by frequenting locations where young peo-  
15 ple congregate, including schools. They also use  
16 peers or classmates, who befriend the target and  
17 slowly groom them for the trafficker by bringing the  
18 young person along to parties and other activities.

19                     (7) A 2018 survey reported that 55 percent of  
20 young sex trafficking survivors in Texas were traf-  
21 ficked while at school or school activities and 60 per-  
22 cent of trafficked adults say they were first groomed  
23 and solicited for trafficking on school campuses.

24                     (8) Schools can and should be safe havens for  
25 students. Schools are best positioned to identify and

1 report suspected trafficking and connect affected  
2 students to critical services. Students are more likely  
3 to report instances of sex trafficking, attempted sex  
4 trafficking, or grooming for the purposes of sex traf-  
5 ficking where they feel most safe from harm and  
6 threats.

7 **SEC. 3. INCREASED PUNISHMENT FOR HUMAN TRAF-**  
8 **FICKING IN SCHOOL ZONES.**
